

Name : _____

Julia Butterfly Hill

One day, Julia Butterfly Hill visits the redwood forests of the Pacific Coast in California. In the forest, she sees many of the trees cut down. Julia feels very sad.

Julia decides to protect the trees. She chooses to live in a tree to stop the forest workers from cutting them down.

Julia names her tree Luna. Luna is 55 metres tall and is more than 1000 years old.

Julia lives in her tree for 738 days! The forest workers cannot cut down the trees. Julia saves the redwood trees!

Answer the following questions:

1. Who visits the redwood forests? _____
